J. W. Phillips, Auctioneer.

PROPOSED NEW BASILICA STE. ANNE DE BEAUPRE

THE PROPOSED NEW BASILICA, DEDICATED TO THE OLD BASILICA. WHEN the historic Shrine and Basilica at Ste. Anne de Beaupre was burned to the ground last year, together with the monastery and the novitiate of the Redemptarist Sisters, the clergy did not waste any more time than was necessary in lamenting their loss, but set about at once to construct a temporary shrine and to lay plans for a larger and newer church. After a long and arduous task it was decided that the old church had become too small for the demands and for accommodation. It was therefore decided to demolish the old walls, and to build a church proportionate to the needs of the future as far as they can be foreseen. The plans of the magnificent structure shown above were decided upon. The new Basilica which has been

WEDNESDAY, APRIL 25th,

GRANDMA'S RASHFUL BOY BECOMES TOWN HERO

His old-fashioned grandmother had raised him through the crump, measles and whooping cough, and felt slighted when he defied the nuns. At thirteen he was meek, modest and retiring. The boldest thing he had done was to sing out loud in church. His whole life had been ruled by fear.

This is "Grandma's Boy" as Harold Lloyd presents him in the opening scene of his recent Assiniboia Exhibition comedy in the parts. Then comes an episode that causes him to rebel against his cowardice. Flooded with confidence inspired by a charm given him by his grandmother—the self same charm that told him that had made his grandmother a famous fighter—he goes forth and captures a desperate criminal who has thrown the whole town into a terror.

While it is plain to be seen that there is a serious vein throughout the story, it is nevertheless, pure comedy, full of the famous brand of Lloyd's humor and wit and sure to give the audience a good time.

At the Opera House May 1st and 2nd.

The Knowledge We Should have of God

(Contributed)

Scripture says, I John, 1, 8: "God is love." If you want to draw a picture of God you cannot but draw one which expresses nothing else but pure love. It is not the love towards His friends which amazes us, for friends He had none; but His love towards His enemies, fallen mankind. Man, whom God created in perfect holiness and righteousness, so that he lived free from sin or guilt; this perfect man, betrayed by his own free will and the devil, fell away from God, transgressed His commandments, fell in sin, turned his back upon God, and brought the judgment of depravity (original sin) upon our whole human nature. In virtue of which, human nature was robbed of its original righteousness and perfection, and is inclined to all evil; which depravity all men inherit by natural birth from Adam and are subjected to God's temporal and eternal punishment. Rom. 3, 7: "There is no difference: for all have sinned and come short of the glory of God." Eph. 2, 1: "Ye (as natural men) were dead in trespasses and sins." Eph. 2, 3: "We were by nature the children of wrath, even as others." Gen. 8, 21: "God looked upon the earth, and, behold, it was corrupt; for every flesh had corrupted their way." A sinful nature, or being in the object of God's affection; benevolence; kindness; charity. God's love is an attribute, quality or property, inseparable from its subject. Human mind cannot clearly understand or comprehend what it means that God so loved the sinful world that He gave His only begotten Son to redeem fallen mankind. John 2, 16: Now we have God's grace and mercy still to consider. God's love, grace and mercy are closely connected: one requires the other that the end be accomplished. In God's love, grace and mercy lies the foundation and fulfillment of God's plan to redeem fallen mankind, or His plan of our salvation. God's love alone, without grace and mercy could not redeem

us, and God's mercy alone, without love and grace could not redeem us. We have heard before: "For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him, should not perish, but have everlasting life." In this verse we have God's love, grace and mercy: "God so loved the world." This divine love acted: "He gave His only begotten Son;" this act is God's grace. The giving of His son was free; He was not forced or compelled to present this gift. His only motive in making it a free gift of His only begotten Son, was His love and mercy. Therefore, God's grace is free spontaneous, more than voluntary divine gift of His only begotten Son to the undeserving. Gal. 1, 4, 5: "When the fullness of the time was come, God sent forth His Son, made of a woman, made under the law; that His Son was subject to the law, to redeem them that were under the law, that we might receive the adoption of sons." Jesus rendered most perfect obedience to the divine law. Matt. 22, 37, 38. Jesus says: "I am come to destroy the law but to fulfil it;" and: "One jot or tittle shall in no wise pass from the law, till all be fulfilled." Yes, He fulfilled the ten commandments completely for us, in our stead. He did it free and willingly. This is the free gift or grace of God to the undeserving. In Gal. 4, 5: "Surely He hath borne our sorrows and carried our sorrows; yet we did esteem Him stricken, smitten of God, and afflicted." But He was not at all stricken, smitten, or afflicted for our sins; He was bruised for our iniquities; the chastisement of our peace was upon Him; and with His stripes we were healed." This proves that the son of God sacrificed Himself for the sins of the whole world. He did it free, and willingly; for as He was punished in our stead. This is the free gift or grace of God to fallen mankind. 1 Pet. 2, 21: "Christ Himself bare our sins in His own body on the tree, that we, being dead to sins, should live unto righteousness; by whose stripes we were healed." Heb. 7, 26: "Such a High Priest (Jesus) became us, Who is holy, unjustly undefiled, separate from sinners, and made higher than

the heavens." When we have sinned, Christ intercedes or pleads for us before His Heavenly Father. 1 John 2, 1, 2: "If any man sin, we have an advocate with the Father, Jesus Christ, the righteous; and He is the propitiation for our sins; and not for ours only, but also for the sins of the whole world." Upon the cross before He died, Jesus said: "It is fulfilled." The work for our redemption is complete. His suffering and death is the payment for our iniquities. His resurrection, on the third day is God's receipt to us that He acknowledges this payment. Accept the atonement of Christ, cling to it till the end, and God the great Judge, can not do otherwise. He must pronounce you free. You have His righteousness in His own blood. All of this is God's free gift or His grace. (Refer to the definition in Webster's Academic Dictionary of the words grace and mercy.) Here we want to briefly mention the will of God. God has a holy and righteous will, and a perfect and good will, we find in the ten commandments. His ten commandments to be fulfilled, there was no Father around it; His holy and righteous will required action, obedience; it could not be stored, since God and His will is unchangeable. God's holy and righteous will, the law, man was lost and eternally condemned; since no man could keep the law. Then God to His mercy, love and mercy, did it in His mind and only with His will, and gave His only begotten Son, whom we have seen fulfilled the law for us, and was crucified in our stead and was buried. This is Christ's atonement or payment, which He made for us, to completely satisfy God's holy and righteous will. It is fulfilled; that has accepted this atonement; we have a receipt for it in Christ's resurrection. He paid the ransom, He delivered us from the bondage of sin and its penalties; we are free. Now the divine love, grace and mercy have their free line of progress or course. For God so loved the world, that He gave His only begotten son, to fulfill His love and grace, "that whosoever believeth in Him should not perish, but have everlasting life;" shows God's mercy. The words: "should not perish, but have everlasting mercy." Mercy is to have pity on a defender and treat him better than he deserves; also to sympathize or compassion to the suffering or condemned. It was the grace of God that opened a way through Christ's atonement, for the free exercise of divine mercy toward men. Ex. 33, 6, 7: "The Lord, the Lord God, merciful and gracious, long-suffering, and abundant in goodness and truth; keeping mercy for thousands, forgiving iniquity and transgression and sin." Ps. 103, 1, 4: "The Lord is merciful and gracious, slow to anger, and plenteous in mercy. He will not always chide; neither will He be angry forever. He hath not dealt with us after our sins; nor rewarded us according to our iniquities. For as the heaven is high above the earth, so great is His mercy toward them that fear Him." As far as the spot is from the west, so far hath He removed our transgressions from us. Like as a father punish his children, so the Lord punish them that fear Him. For He knoweth our frame; He remembereth that we are dust." O wonderful Love—O wonderful Grace—O wonderful Mercy—Rom. 8, 31, 32: "What shall we then say to these things? If God be for us, who can be against us? He that spared not his own son, but delivered Him up for us all, how shall he not with Him also freely give us all things? Who shall lay anything to the charge of God's elect? It is he that condemneth? It is Christ that died, yea rather, that is risen again. Who is even at the right hand of God, Who also taketh intercession for us. Who shall separate us from the love of Christ, which tribulation, or distress, or persecution, or famine, or nakedness, or peril, or sword. As it is written: For Thy sake we are killed all the day long; we are accounted as sheep for the slaughter. Nay, in all these things we are more than conquerors through Him that loved us. For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present,

nor things to come, nor height nor depth, nor any creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord."

"Rock of Ages cleft for me! Let me hide myself in Thee: Let the water and the blood, From Thy risen side that flowed, Be of sin the double cure. Save me Lord and make me pure."

A Handy Can to have in the House—Now!

Not only good for floors, but useful on all interior woodwork where a hard wearing gloss finish is desirable.

Housecleaning time should start with dusting and scrubbing, and finish with PINT. There's nothing else in all the world that will do so much at so little cost.

When you paint, paint with good paint. Anything else is poor economy: spells disappointment when the first gloss wears off.

YOU GET THE AMOUNT OF THAT CHEQUE

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER whereby we are able to offer that farm magazine together with our own weekly at the same price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the practical side of the farm. Every issue is full of helpful hints and experience on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editorial staff consists of men thoroughly familiar with every branch of farming work from the practical and theoretical to the most minute details. The magazine is published for you by readers. Many of these readers are men who are real money savers to farmers.

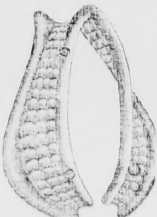

This offer may be withdrawn at any time without doubt your intention is to receive for this ready, then will not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the \$1.50.

Mail your cheque or drop into our office the first time you are in town.

Avoid Sore Shoulders

by using GOOD sweat pads. A goat-hair pad dries easy, keeps soft and springy and wears well. Full width and 4 hooks. Price 65c, 80c and 90c each.

A Disappointing Announcement

Hon. Charles Stewart has made his long and eagerly awaited statement to Parliament outlining the immigration policy of the Dominion Government. That statement has, however, signally failed to arouse any enthusiasm either in Parliament or throughout the country; in fact, taken on the whole, it has proved a grievous disappointment to all who were expecting real action in regard to this subject, which is admittedly of such vital importance to the future development and prosperity of Canada.

The lengthy delay before the Minister's announcement had given rise to strong hopes that a far-reaching and comprehensive immigration policy was being evolved. These hopes have been dashed, because there is nothing new, original or vigorous in the plan laid before Parliament; on the contrary, the policy outlined is so timid, and so palpably follows the lines of least resistance, that it has called forth strong criticism from even the staunchest of Liberal newspapers and outspoken opposition from Government supporters in the Commons.

No one will attempt to deny the truth of Mr. Stewart's statement that anyone who could formulate an immigration policy for Canada that would be satisfactory to all people would need to be a second Moses. Mr. Stewart talks optimistically of securing 200,000 immigrants for Canada this year, but that number is achieved if it will be, not because of the government's plans, but in spite of them and because people cannot be wholly kept away from Canada.

And, after all, what are 200,000 new settlers in a country of Canada's immense area and almost inexhaustible wealth of undeveloped natural resources, and which is now about the least thickly populated country in the world? Two hundred thousand additional people can be absorbed in Canada, almost without being noticed, especially as it is an admitted fact that this Dominion has tens of thousands of people annually to the United States. This Dominion should aim at receiving 200,000 from the British Isles alone, and as many more from all other countries combined.

At a time when Australia is getting thousands of British settlers under the Empire Settlement scheme, the Canadian Government hesitates to adopt a really effective policy whereby this Dominion would receive its full share of immigrants from the Old Country. Instead, the Government seems to place its chief reliance in the Canada Colonization Association. Granted that the Government should utilize to full advantage any and all reputable agencies for the obtaining of settlers, such as the Association referred to, the C.P.R., Canadian National Railways, and the Empire Settlement scheme, these should be but auxiliaries to the main Government effort.

Apparently the short-sighted attitude adopted by the leaders of organized labor on the question of immigration is largely responsible for the weak-kneed attitude of the Government. Labor, as has been repeatedly pointed out in this column, is standing in its own light. No sane Canadian desires to see wages reduced in Canada below that which will guarantee to the worker not merely a decent but a good standard of living, but the fact remains that the average Canadian is not prepared to do the "rough" work which is required to be done in order that raw materials and means of transportation shall be available for our industries, and without such class of labor, Canada's resources must remain undeveloped and her industries languish.

Furthermore, just so long as this class of labor is lacking, and wages remain at or close to the peak reached during the abnormal war years, costs of production and transportation must remain so high that the average resident cannot afford to purchase as freely as he otherwise would. The inevitable result is decreased sales, smaller production, and unemployment, and the greater the unemployment, the smaller the sales and the lower the production. A return to more normal conditions, which is a large volume of immigration would assist in bringing, would mean an increase in the purchasing power of the dollar, and even with a somewhat lower wage, the workman would find himself better off, purchases would increase, industry revive, and employment become more general. But organized labor persistently refuses to recognize these economic truths and deliberately closes its eyes to the fact that there is even a point where such costs of production operate to curtail and even altogether stop production, which means unemployment. Surely it would be better to have all employed at a reasonable wage, than to have some workmen employed at exceptionally high wages in limited production and others in idleness because work cannot be obtained.

Nevertheless, the advocates of this short-sighted view appear to have the ear of the Government, this limiting economic policy not alone on themselves but the whole country. The only bright spot in this immigration headline at Ottawa is the unofficial announcements that a separate department of immigration is to be created, because it is only human nature that anyone appointed to that portfolio will be anxious to show results and justify his appointment. Perhaps, then, some day we will be brought into the dead bones of our national business of obtaining more, and many more people for this thinly populated Dominion.

Eczema Covered Arms of This Healthy Child

Mrs. Alex. Marshall, Sprucedale, Ont., writes:—

Baby Marshall.

DR. CHASE'S OINTMENT

60 cents a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

Household Hints

Valuable Recipes for the Busy Housewife

Forecast Rhubarb Pie

2 cups rhubarb, ¼ teaspoon salt.
1 cup sugar, ¼ teaspoon nutmeg.
2 tablespoons Sun-Maid seedless raisins.

½ cup very fine bread crumbs.
Pastry for 2 crusts.

Cut rhubarb in ½ inch pieces, acid with boiling water, drain and mix with other ingredients in order given. Place in a pie pan lined with pastry, cover with upper crust and bake in hot oven about 20 minutes or until brown, reduce heat and cook 15 minutes longer.

Sugar Cookies

½ cup butter, ¼ teaspoon salt.
1 cup sugar, 1 tablespoon milk.
2 cups flour, grated rind 1 orange.
1 cup chopped Sun-Maid raisins.
2 eggs, 2 teaspoons baking powder.

Cream butter and add sugar slowly, creaming them together. Add well beaten eggs. Sift flour, baking powder and salt together and add to egg mixture. Add milk, flavoring and raisins. It dough is not stiff enough to roll, add more flour. Turn out on floured board and roll thin. Cut in fancy shapes and bake in hot oven in 15 minutes. This makes about 30 cookies.

Medical Men to Meet

Over one thousand members of the profession are expected to attend the annual meeting of the Canadian Medical Association, which is being held in Montreal in June. A number of the most distinguished surgeons from Great Britain, the United States and Canada, are to be present.

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to Catarrh, success is gained if the auditory nerve is not diseased, and the eardrum, and thereby discharges Catarrh out of the system. Penetrating through the passages of the ear, the soothing vapor of Catarrhizone relieves the inflammation, destroys the seeds of Catarrh and thereby restores nature to resist her foe. For Catarrhizone, pain over the eyes, plugged nostrils, and other symptoms associated with Catarrh, i.e., Catarrhizone. You'll be more than pleased with the quick improvement in your condition. Two months' treatment. One Dollar, sold everywhere, or the Catarrhizone Co., Montreal.

An edition of the New Testament 3½ inch by a little over ½ inch, and 1½ inch thick, is in the Congressional Library at Washington.

BABY'S HEALTH IN THE SPRING

The Spring is a time of anxiety to mothers who have little ones in the house. Conditions make it necessary to keep the baby indoors. He is often confined to overcrowded, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given to the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. W. Williams' Medicine Co., Brockville, Ont.

Wonderful Muscular Power

Jewish Athlete Proves that He Can Bite Through Steel

That a Jewish athlete named Breitbart, 31 years old, 6 ft. 3 in. in height, and weighing 210 lbs., can bite through steel is vouched for by a medical correspondent of the Lancet.

Breitbart's performances astounded a committee of physicians, engineers, dentists and presidents of athletic corporations, who saw him sever with his teeth several iron and steel chains one-fourth of an inch thick; bend into a circle iron rods half an inch square, using his mouth as a fulcrum; bend over his head a rail four inches thick by two and a half inches.

The correspondent says: "The committee is satisfied that he accomplishes the tasks by means of extraordinary muscular power coupled with excellent scientific training and muscular energy."

Mead's Liniment for Coughs & Colds

W. N. U. 1460

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

THE CENTAUR COMPANY, NEW YORK CITY

No Entries for Soaring Flight

Now Making Light Engine for Use by

So far no entry has been registered for the British prize of \$5,000 for a soaring flight of fifty miles, and expert opinion has been heard to express the view that it will not be possible to use gliders for travel across the country after the manner of the balloon and albatross. Attention is being turned to the possibilities of installing an engine of 20 horsepower in a glider and an aircraft company has produced a two cylinder air-cooled engine which weighs 55 pounds and develops 18 horsepower. An attempt is being made to interest pilots who cannot afford to keep a full-sized aeroplane in this new engine.

Worms in children, if they be not attended to, cause convulsions and often death. Mother's Graves' Worm Exterminator will protect the children from these distressing afflictions.

B.C. Hen a Winner

Only One to Reach Covered 300-Egg Mark

The only hen out of the total of 11,679 competing in the Record of Performance "A" during the year 1921-22 which reached the covered 300-egg mark was a single-comb White Leghorn owned by the University of British Columbia. Of the 25,524 birds which have been entered in the contest since its inception in 1916, only two, including this one already referred to, have hit 300 eggs. The second bird was also a Leghorn and made its record in Ontario.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

And the man who is really and truly in love doesn't lie to the woman in the case.

Japan's Supply of Quicksilver

Japan will soon be independent for its supply of quicksilver. A rich vein, said to extend seven miles on the surface and to vary in width from two to six feet, has been discovered. The ore assays 18 per cent, and the vein increases in thickness the deeper it is followed.

Keep Them Growing

Children who are over-thin, listless or delicate, should take

Scott's Emulsion

regularly every day as an aid to growth and sturdiness. Nothing surpasses Scott's Emulsion as a tonic-nutrient for a child of any age.

Scott & Bowne, Toronto, Ont.

After EVERY Meal

give your digestion a "kick" with WRIGLEY'S.

Sound teeth, a good appetite and proper digestion mean MUCH to your health.

WRIGLEY'S is a helper in all this work—a pleasant, beneficial pick-me-up.

CROWN BRAND CORN SYRUP

is one of those pure food products that is so good and popular that it is known and used from one end of Canada to the other.

"Crown Brand," the original Corn Syrup, is the favorite because of its flavour and unquestioned quality. Accept no substitutes.

Canadian National Road Shows Operating Surplus Of Four Million Dollars

Ottawa.—The Canadian National Railways closed the year 1922 with an operating surplus of four million dollars, but with a deficit, when fixed, and other charges are taken into account, of sixty millions. Such was the announcement of Hon. George P. Graham, Acting Minister of Railways, in making the annual statement on the National roads to the House of Commons.

Although the Grand Trunk has since been formally amalgamated with the Canadian National, Mr. Graham gave statements for the two systems separately—statements which showed that an operating deficit on the Canadian National was turned into an operating surplus by the Grand Trunk.

The Grand Trunk had an operating surplus of \$10,929,907; the Canadian National, namely the Canadian Northern, the C.N.R., and the G.T.P., an operating deficit of \$6,736,348. Taking one from the other, the National roads as a whole had an operating surplus for 1922 of \$4,193,559. Compared with the year previous, both systems showed considerable improvement. The operating deficit on the Canadian National was reduced by about six and a half millions and the operating surplus on the Grand Trunk was doubled.

Canadian lines were the only part of the Grand Trunk system to show an operating surplus in 1922; last year, the New England lines were the only part of the Grand Trunk system to show an operating deficit. The western lines and the central Vermont both converted an operating deficit into an operating surplus.

Deductions for taxes and other items brought the operating surplus of \$4,193,559 to the anticipated roads down to \$2,092,782, deducting this from fixed charges, amounting to \$62,454,627, the total deficit for 1922 is shown to be \$60,251,845. This is an improvement of \$12,104,423 over the deficit for the year previous.

Farmers Paying Income Tax

More than One-Third Were Resident in Saskatchewan

Ottawa.—Nearly four thousand persons designated as farmers, ranchers and fruit growers in Canada were registered as shareholders in Canadian chartered banks in 1922, according to a report brought down by the Minister of Finance. The number of farmer shareholders by provinces was as follows: Alberta, 216; British Columbia, 58; Manitoba, 324; New Brunswick, 65; Nova Scotia, 245; Ontario, 1,188; Prince Edward Island, 28; Quebec, 465; and Saskatchewan, 747.

A total of 18,723 farmers paid income tax to the Federal Treasury in the year 1922, and of all the provinces Saskatchewan last year had the greatest number with a total of 6,509. Ontario came next with 6,128 and Manitoba third with 2,548. The total for the other provinces were: Alberta, 1,638; British Columbia, 610; New Brunswick, 18; Nova Scotia, 195; Prince Edward Island, 97; Quebec, 159; and Yukon, 2.

Turks' Educational Orders

Constantinople.—Pursuing a policy of nationalism, the Ankara Government has decreed that Turkish history, geography and language shall be taught in the Turkish language in all foreign schools in Turkey.

Moore Jaws Bye Election

Moore Jaws.—Hon. W. E. Knowles, M.P., and E. N. Hopkins, Progressive, were nominated to contest the bye election for Moore Jaws constituency April 16.

TOOTHACHE

Place a piece of cotton wool saturated with Minard's Liniment on the tooth. Acts as a counter-irritant and gives much relief.

EXPERIMENT WITH WESTERN COAL

EDMONTON AND TORONTO PAPERS CO-OPERATE IN LALBERTA COAL PROJECT

Toronto.—An experiment with a view to determining whether the vast coal resources of Alberta are available for practical use in relieving the fuel situation in Ontario now and in the future is being conducted by the Toronto Star in co-operation with the Edmonton Journal. The latter newspaper is sending east a car of coal from the mines of Alberta.

At the same time the Provincial Commissioner of Alberta and other experts are consulting with a view to a series of experiments with the western product in various types of furnaces in Toronto and elsewhere. When the "burn quality" of the coal deteriorated this will result in the question of price, including the cost of transportation.

Have Hopes That Germany May Yield

French Premier Tells of Progress Made in Ruhr Invasion

Paris.—Premier Poincaré, appearing before the Finance Committee of the Chamber of Deputies to give an account of the situation in the Ruhr, said he had great hope that Germany would yield "by the end of May."

The Premier told with him figures giving the amount of coal and coke shipped from the occupied districts, but demanded from the deputies a formal engagement not to divulge such figures as he would announce. The Socialist Deputy, Dechamps, whom Premier Poincaré recently named "an admirable comrade" in the Chamber, refused to pledge himself to secrecy, so the Premier withdrew the figures.

Mr. Poincaré, according to the report, said that the great German manufacturers, who were the soul of German resistance, had tried on several occasions to open direct negotiations with the French Government, but the latter would only listen to official propositions from the German Government. The abandonment of Essen, for example, could be considered only when the entire section of operations had been effected. The Premier indicated that the railways in French hands constituted the best of guarantees.

Argentine Would Arbitrate Debt

British Loan to Be Settled at Par Instead of Current Exchange Rate

Buenos Aires.—Arbitration of the differences between Argentina and Great Britain over the payment by the British of \$45,000,000 to Argentina, in January, 1921, is proposed in the report of Attorney-General Larrea, who was entrusted with investigation of British claims involving the sum of 3,000,000 pesos.

The British advanced the \$50,000,000 to enable Argentina to liquidate its previous loans from United States bankers, on the understanding that it was to be applied against the British credit established in Argentina during the war. Argentina credited the money at par, whereas the British contend that it should have been credited at the current rate of exchange on New York.

Canada Curing U.S. Bacon

Ottawa.—More than \$2,000,000 pounds of American bacon sides have been imported into Canada from the United States, cured here and then shipped to England within the last four years. This information was given the House of Commons by Hon. Jacques Bouchard, Minister of Customs.

New Dairy Land Discovered

Melbourne.—A quarter of a million acres of new dairy land country, capable of maintaining hundreds of families, have been discovered in the Eastern Highlands district in the State of Victoria.

E. N. Carter, Editor and Publisher of The Press, Winnipeg, Sask.

Prince Thrown at Water Jump

Escaped Injury at Races When Horse Balked

London.—The Prince of Wales was thrown at a water jump in the autumn point-to-point race at Aylesford, but was unhurt.

The Prince was riding Prince Henry's horse and took the water jump in splendid style on the first round, but the second time the horse balked at the bank and plunged straight into the water, which is several feet deep.

The Prince was thrown into the boughs of a willow tree on the opposite bank but managed to recover his horse, which was jumping about up to its neck and rapidly sinking in the mud. The Prince, undisturbed, quickly seized the horse's head and brought the animal out amid the cheers of hundreds of spectators.

Greeks Challenge to Angora Government

Demand Ships to Take Turkish Refugees From Greece

London.—The Greek Government has announced its policy on the refugee question, says an Athens dispatch to the Times. This policy is a direct challenge to the Turks, demanding that the Angora Government send ships to transport the Turkish populations from Greece and declaring that it is absolutely impossible for Greece to receive more refugees unless an exchange of populations is arranged, whereby the Turks now residing in Greece will cede their homes to an equal number of Anatolian Greeks.

Record Fur Catch

Reports Indicate that Indian Trappers Had Good Season

Regina.—Statistics on the fur production of the various Indian reserves in Saskatchewan, Manitoba, and Alberta, will be available shortly. W. M. Graham, Indian Commissioner for the Prairie Provinces, has just sent a questionnaire to Indian agents in this regard. Particulars concerning the sale of domestic animals during 1922 is also requested.

Tentative reports already received, Mr. Graham states, indicate that the trappers' catch for the winter of 1922-23 will be almost, if not quite, the largest on record.

Keep Your Hands Soft and White With Cuticura

The daily use of the Soap, with occasional touches of the Ointment, is very effective for keeping the hands soft and smooth. For red, rough or sore hands. On retiring bathe in hot water and Cuticura Soap, dry and rub in Cuticura Ointment. See 25c. Ointment 25c. and 50c. Tubes 25c. Sold throughout the Dominion. Canadian Branch, The J. C. Cuticura Co., Ltd., 140 St. Paul St., Montreal. 100% Cuticura Soap above without trace.

Want To Put Men On The Land Where They Can Make Good

MANITOBA REFERENDUM

TWO VOTES ON LIQUOR ISSUE WILL BE TAKEN

Winnipeg.—The people of Manitoba will be asked to vote not only on the bill of the Moderation League for the establishment of Government stores for the sale of liquor for beverage purposes, but on the petition of the Beer and Wine League for the sale of beer and wine with meals in hotels, and separate referenda will be taken according to a decision reached in the Legislature.

While there was a strong effort, initiated by Attorney-General R. W. Craig for simultaneous plebiscites on both proposals, the House decided by the casting vote of Mr. Speaker (Hon. P. A. Talbot) to take two distinct votes.

There will thus be a referendum on the Moderation League's bill June 1, according to previous announcement by the Government, and another referendum on the Beer and Wine League's petition on a subsequent date.

HUSBAND DIDN'T DARE LEAVE HER ALONE HEART WAS SO BAD

Those feelings of faintness, those dizzy spells, the agonizing sinking sensations which come on from time to time, indicate a weakened condition of the heart and a disordered state of the nerves.

MILBURN'S HEART AND NERVE PILLS

There is no equal as a remedy to strengthen the heart, invigorate the nerves and build up the nervous system. Mrs. O. V. Milburn, Oakville, Alta., writes:—"About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would seem since he is here before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better. So, continued all winter, and now I never feel any such distress. I surely do appreciate the good they have done for me."

Price One box at all dealers or mail order, on receipt of price by The T. J. Milburn Co., Limited, Toronto, Ont.

Hamburg Regains Pre-War Position

Port Handles More Tonnage Than Antwerp or Rotterdam

Berlin.—Hamburg has regained her pre-war position as the greatest centre on the European continent. Statistics show that the port handled last year more than 12,000,000 net tons as compared with 12,750,000 for Antwerp, and 12,250,000 for Rotterdam.

The German lines whose operations before the war accounted for 67 per cent of Hamburg's traffic, now handle only 29 per cent, being second to the British, whose percentage is 31. The Dutch are third and the United States fourth.

Fight In Tokio Assembly

Tokio.—The diet was prorogued in the midst of a free fight precipitated by a motion of the opposition to impeach the Government. Travaux publics were flying through the air when in the small hours of the morning the speaker declared the session closed.

Lady Carnarvon Reaches Cairo

Cairo, Egypt.—Lady Carnarvon has arrived here, ending her hurried trip from England, which she made partly by aeroplane, to be with her husband, who is ill with blood poisoning from an insect bite. Lord Carnarvon is much improved.

Ex-Kaiser's Wife Visits Germany

London.—Princess Hermine, wife of the former German Emperor, according to a dispatch to the Times from The Hague, has gone to Germany, she will remain in that country for two months.

Want To Put Men On The Land Where They Can Make Good

Ottawa.—"It is unfair to suggest that this is a real estate scheme to benefit the directors," declared M. A. Brown, representing the Canada Colonization Association, to a committee of the House of Commons.

"It is not a real estate scheme and we were careful to see that no man interested in real estate was admitted to the board," he continued.

"The association is formed on a non-profit making basis, the price of land is fixed by government valuations, the rate of commission is fixed and every dollar we get goes back into immigration activities. The books of the company will be open to the Government all the time."

"Why did Sir John William resign?" asked H. Master, of Montreal. "The first reason was that he could not give his time," answered Mr. Brown. "He also refused to go out and get money, taking the ground that money subscribed should be paid up. Some of the subscribers were not paying up."

"The variant land in the west must be sold to settlers. If Canada was ever to be relieved of her financial burden, said Mr. Brown. The association proposed to establish sales agencies throughout the world and the agents would be paid on a five per cent basis for the results they achieved."

"The first and last consideration is the settler," declared Mr. Brown. "We want to put men on land where they can make good. At present there are 15 settlers leaving Canada against one coming in."

"Why are people leaving the prairies?" asked P. Callih, member for Pontiac.

Mr. Brown replied that in boom times many farmers in the west had bought too much land, automobiles, etc., and now found they were carrying too much overhead. When they could not carry on they had to leave. The total commission charged was 10 per cent. Of this, five per cent went to the agent abroad, 2½ per cent to the local agent who showed the land and 2½ per cent to pay overhead of the association. The reason that Government aid was necessary was because the 2½ per cent would not nearly meet overhead.

Australia Discards Warcraft

Melbourne.—Twenty-four units of the Australian navy are to be disposed of, according to an announcement by the director of naval intelligence. The vessels include the battle cruiser Australia, light cruiser Sydney and a number of destroyers and sloops, as well as six submarines.

Patrolize your local merchant and thereby help to build up your home town and community.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that annoying bump, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, corn, corn between the toes, and the calluses, without surgery or irritation.

JUTLAND NEWS

The settlers of this district are sorry to announce the death of Mr. Richardson of Richelieuville, the beloved father of Messrs H. and B. Richardson.

Three young men of this district thought they would learn house cleaning as went down to the school house and washed off the seats and desks and scrubbed the floor. By all reports they made a good job and we will see they will have another dance. Won't we boys?

Mrs. H. Reicher of Didsbury was out with her brother Mr. P. E. Liesemer for a few days.

Mr. and Mrs. Froz returned from Calgary and are staying with their son Frank after which they will move to B. C.

Mr. and Mrs. P. E. Liesemer are all smiles these days to celebrate the arrival of a daughter.

Roads and weather being good everybody was out for riding on Sunday.

It looks as though the people of this district are not getting discouraged and are trying to dry up everybody's hand as can be planting their future crop. Nothing like taking a chance is there boys?

On account of the busy season readers of this column do not want to get discouraged if there are not as many items as there should be but we will do better as soon as the rubber season starts again. Heah!

We are glad to hear that Mr. Sick is back home again.

BURNSIDE

Johnah! What's coming you. How do you get that way? What for all want for two like. Signed, Merry Moon.

Mrs. Joe Clark had a bad attack of quinsy last week.

Quite a number from here journeyed to Burnside Friday to hear the debate and play "Albion in Trouble" given by our local talent. The play was excellent, also the dance after. We have the Baneroff

and Burnside U. F. A's will swap programmes again soon.

Mr. and Mrs. John Cook are rejoicing over the birth of a son.

It must be clever to have a big appetite, but we aren't sorry for the Jutland correspondent. Why did he fill up and lay in a supply for a few days when he had such a good chance. Next time better put a cork in your pocket till mamma gets the supper ready.

Mrs. Harvey Doll and Tony McInnesfield loaded a car of household effects at Twining on Monday. Their wives and families who are visiting Mr. and Mrs. Theobald left at present will leave in a few days for their new home in B. C.

The baseball season has begun. We are glad to hear Mr. John Sick is home again and much improved.

Mrs. Bessie Rist is able to be out again after her recent attack of flu.

Mr. and Mrs. Noah McKel and son had tea with Mr. and Mrs. Hark McLean Sunday evening.

Mrs. Elmer Doytas and son are visiting the farmers' parents, Mr. and Mrs. J. K. Devitt.

Next forget the U. F. A. meeting and debate in Burnside school Friday evening April 27th.

SPRINGSIDE

Mr. Erven Rodney was a business visitor in Calgary last week.

What's happened to the survivors of last year's baseball team? Have all the champions disappeared?

To meet his long-agoed hatching, try. Cheer up, it's but a short distance up the west road.

Mr. Luke Collings has purchased a new triple plow. It looks like the late Collings will be doing some of the farming this year.

Local Burnside district looking new again.

Another the grass is growing green on the south trail, Ruben.

A number of people in the district are very anxious as to who the author of Burnside news is. Don't worry. Remember the old adage, "Curiosity killed the cat."

AUCTION SALE

Under instructions from Hans Hermanson I will sell by public auction at his home, corner east of Dr. J. L. Clarke's residence, on

SATURDAY, APRIL 28th,

The following:

ADDITIONAL ATTRACTION TO THE NIPIGON

Camping on the Nipigon river-side.

If you could get a better buck than the one above, how far would you go to get him? The camera man got this one in the Nipigon district of Ontario and it showed a great deal of interest in the rest of the party. Usually, however, they are not so approachable, and to get close enough to shoot is more or less of an achievement. The picture is therefore remarkable for this if for no other reason.

The Nipigon has only of recent years come into its own as a hunting and fishing country, but for centuries Indians and Whites have hunted and fished along its trails.

and it holds the record of being the most perfect and prolific breeding place in the world for large red and speckled trout. That Indians are said to have piled them up across the cordwood, and the great number taken by anglers each year are facts which warrant the belief that the supply is inexhaustible. Moose and deer are found in large numbers also, and big game in this district has increased of late years because for some reason or other the animals are driving farther north. Fishing is good any time between May and September, and exceptionally so toward the end of the season when the weather gets cooler.

Each year the Nipigon absorbs

more sportsmen and many who go in search of health as much as game. Up to the present, however, the number has been confined to those who are satisfied or able to live in tents and "rough it," so the building of this year of one of the Canadian Pacific Bungalow Camps will prove a still greater attraction. The scenery is superb and is a type all its own, for nowhere else can one find such a blending of groves and bays in foliage or such beautifully wooded waters. In later years, when its wealth of mineral ore is exploited much of this will be destroyed, but at present it stands as one of the most "worth while visiting" scenic spots in the world.
